CLARIFICATION: The selected Consultant may be responsible to provide Preliminary Engineering, which may be added to the contract by contract modification upon completion of the IJS. This project may be further advanced to Final Design by contract modification when Preliminary Design is complete.

QUESTION: Item 12 on page 2 of the bulletin indicates that the consultant will provide traffic projection. However, within the prequalification requirements, there is not a requirement for prequalification in advanced traffic engineering design and modeling, traffic forecasting or travel demand and simulation modeling. Do you know if one of those will be added to the requirements and if so which one?

ANSWER: Four additional Transportation Planning Services have been added to the Prequalification Requirements of the RFP: Planning Services, Traffic Data Collection, Travel Demand and Simulation Modeling, and Traffic Forecast.

CLARIFICATION: Mr. Scott Pennington, PE representing Boone County has been added to the Selection Committee.
